

STOL CH 750

LIGHT SPORT UTILITY KIT AIRPLANE

Option Kits for the STOL CH 750 Light Sport Utility Kit Airplane

Wingtip Nav / Strobe / Position LED Light Kit **\$754.00**
 AeroLED: Pair of wingtip mounted three-in-one combination navigation, strobe and position lights.

Landing Light LED Kit **\$385.00**
 AeroLED: Super-bright landing light mounts inside the wing leading edge slat. Order two (02) for wig-wag capability.

Dual Control Sticks **\$495.00**
 This option replaces the standard "Y" center stick with dual control sticks.

Long Range Wing Tanks **\$490.00**
 This kit option increases the fuel capacity (and range) of the aircraft to a total of 30 US Gallons (2 x 15).

Micro Vortex Generators (VG) Kit **\$94.50**
 Install these new VGs on the bottom of the elevator for even slower approach speeds.

Folding Wing Option Kit **\$560.00**
 Fold back the wings for storage or trailering. (The standard wings are easy to detach).

Map Box Option Kit **\$68.00**
 This map box kit mounts in the instrument panel for easy access. Includes hardware and latch.

Center Console Option Kit **\$65.00**
 Center console option mounts below the panel; approx. 4.75" wide.

Cabin Upholstery Option Kit **\$795.00**
 This is an attractive upholstery kit, as installed in the Zenith factory demonstrator aircraft; Grey.

8-Inch Wheels **\$80.00**
 Larger wheels (from Matco) replace the standard 6-inch wheels included in the kit (see above). The price is the additional cost for larger wheels, and does not include the tires (a number of different types of tires may be used).

Floats: Straight or Amphibious
 Zenair all-metal floats developed specifically for the STOL CH 750. #1400 Zenair LSA Floats include rigging to the STOL CH 750. Retrofit. Available straight floats or amphibious floats. Available basic kit or pre-drilled kit, or factory assembled (ready to install).

Firewall-Forward Packages are available for a selection of popular light aircraft engines, including:

- ✦ **Jabiru 3300** (105 hp @ 2,950 rpm)*
- ✦ **Continental O-200 series***
- ✦ **Rotax 912 ULS** (100 hp)*
- ✦ **ULPower Aircraft Engines,**
- ✦ **Auto Conversions such as Corvair and others...**

STOL CH 750 Firewall-Forward Packages are supplied and supported by various vendors and typically include "everything needed forward of the firewall" including engine mount, cowl, exhaust, engine cooling system, oil radiator, propeller. etc.

* Available through Zenith Aircraft Co.
